

Hello Project

Create a form (see below) that will allow you to enter a name and display a message in English or Spanish when the appropriate button is clicked.

English message: Hello [Name], how are you today.

Spanish message: Hola [Name], cómo anda hoy.

The image shows a screenshot of a Java Swing window titled "Hello World in English/Spanish". The window has a yellow title bar and a gray background. It contains a text input field labeled "Enter Your Name:" with a yellow background. Below the input field are three buttons: "Push Me For English", "Push Me For Spanish", and "Exit". At the bottom of the window is a large yellow rectangular area, likely intended for displaying the output message.
