SKILLS USA DENTAL ASSISTANT EXAMINATION
IDENTIFICATION OF ERRORS IN A SERIES OF RADIOGRAPHS

CHOOSE THE CORRECT ANSWER AND PLACE THE CORRECT ANSWER ON THE ANSWER SHEET

(These radiographs are not from the same patient or mannequin; they have been processed either manually or automatically)

1. Radiograph #1 exhibits the following:
 - A. Film Creasing
 - B. Film over processing
 - C. Film under exposure
 - D. Cone cutting
 1. A & B
 2. A,C & D
 3. All the above
2. Radiograph #2 exhibits the following:
 - A. Film Overlapping
 - B. Film Elongation
 - C. Film Underexposure
 - D. Improper horizontal angulation
 1. A & D
 2. A,B & D
 3. All the above
3. Radiograph #3 exhibits the following:
 - A. Improper horizontal angulation
 - B. Film Foreshortening
 - C. Film Elongation
 - D. Improper vertical angulation
 1. A & B
 2. B & D
 3. C only
 4. All the above

4. Radiograph #4 exhibits the following:
- A. Film has been processed before it was exposed
 - B. Improper angulation
 - C. Film has been exposed to light prior to processing
 - D. Film has not been processed
- 1. A and C
 - 2. A, C and D
 - 3. D only
 - 4. All the above
5. Radiograph #5 exhibits the following:
- A. Film elongation
 - B. Improper Vertical Angulation
 - C. Improper Horizontal Angulation
 - D. Improper processing
- 1. A and C
 - 2. A, B & C
 - 3. C only
 - 4. All the above
6. Radiograph #6 exhibits the following:
- A. Film Elongation
 - B. Herringbone Effect
 - C. Improper Vertical Angulation
 - D. Improper Horizontal Angulation
- 1. A and C
 - 2. B and C
 - 3. C only
 - 4. All the above
7. Radiograph # 7 exhibits the following:
- A. Film Overexposure
 - B. Cone cutting
 - C. Improper Vertical Angulation
 - D. Improper Processing
- 1. A and C
 - 2. B and C
 - 3. C only
 - 4. D only
8. Radiograph #8 exhibits the following:
- A. Over exposure
 - B. Under exposure
 - C. Improper handling during processing
 - D. Improper handling during exposure
- 1. A and C
 - 2. A, B and C
 - 3. A, B and D
 - 4. C only
 - 5. D only

9. Radiograph #9 exhibits the following:

- A. Under exposure
- B. Film is not washed correctly
- C. Over processed
- D. Under processed
- E. Fixer stain
- F. Developer stain

- 1. A,C, and E
- 2. B, D and E
- 3. B and E
- 4. D and E
- 5. E only

10 Radiograph #10 exhibits the following:

- A. Under exposure
- B. Over exposure
- C. Over processing
- D. Under processing
- E. Outdated film use

- 1. A, and C
- 2. A, D and E
- 3. A, C and D
- 4. A, C,D and E
- 5. All the above

SKILLS USA DENTAL ASSISTANT CONTEST

ORAL PATHOLOGY IDENTIFICATION

Looking at the pictures given to you, please identify the condition by choosing the correct answer. Place your answer on the answer sheet given, remember to write your number on your answer sheet.

1. Picture #1 is of the following
 - a. Mandibular Tori
 - b. Maxillary Tori
 - c. Mandibular Periodontal Abscess
 - d. Maxillary Periodontal Abscess
2. Picture #2 is a picture of Herpes Simplex, this is also known as
 - a. Angular Cheilitis
 - b. Cold Sores
 - c. Fordyce's Spots
 - d. None of the above
3. Picture #3 has arrows pointed to an area within the tooth, that is the most common type of oral pathology, it is called
 - a. Periodontal abscess
 - b. Per apical abscess
 - c. Caries
 - d. Endodontic Abscess
4. Picture #4 is a common condition that can be easily wiped away. this condition is called
 - a. Herpes Simplex
 - b. Angular Cheilitis
 - c. Oral Thrush
 - d. Oral HPV
5. Picture #5 is a condition called Angular Cheilitis is often found on what types of patients?
 - a. Patients who drool in excess
 - b. Patients who have poorly fitting appliances
 - c. Patients who may be infirmed
 - d. All the above

MULTIPLE-CHOICE QUESTIONS

Complete each question by circling the best answer.

1. The best way to prevent an emergency is to _____.
 - a. have the drug kit open and ready for all procedures
 - b. know your patient
 - c. call the patient's physician before the appointment
 - d. take vital signs before seating the patient in the dental treatment area
2. Most medical emergencies occur because a person is _____.
 - a. overweight
 - b. not taking his or her medication
 - c. under stress
 - d. not active
3. What member of the dental team is ultimately responsible for a patient's safety in the dental office?
 - a. dental assistant
 - b. dental hygienist
 - c. business assistant
 - d. dentist
4. What member of the dental team would most likely be in charge of calling emergency medical services?
 - a. dentist
 - b. business assistant
 - c. dental laboratory technician
 - d. another patient
5. Emergency phone numbers should be kept _____.
 - a. next to each phone
 - b. in each treatment area
 - c. in the business area
 - d. in the sterilization area
6. What minimum credentials must a dental assistant have to meet emergency care standards?
 - a. RN license
 - b. CPR and Heimlich certification
 - c. EMT certification
 - d. DDS
7. The universal sign for someone choking is _____.
 - a. wheezing
 - b. placement of the hands to the throat
 - c. turning blue
 - d. screaming
8. An abnormal increase of glucose in the blood can cause _____.
 - a. angina
 - b. hypoglycemia
 - c. seizure
 - d. hyperglycemia
9. The drug most commonly used in a medical emergency is _____.
 - a. an ammonia capsule
 - b. nitroglycerin
 - c. epinephrine
 - d. oxygen
10. In emergency care, the acronym *AED* represents _____.
 - a. automated external defibrillator
 - b. auxiliary examination device
 - c. acute emergency drill
 - d. airway that is externally directed
11. What does the AED provide to the heart?
 - a. oxygen
 - b. jolt of an electrical current
 - c. blood
 - d. heat
12. If a patient tells you how he or she is feeling, the patient is referring to a(n) _____.
 - a. diagnosis
 - b. sign
 - c. explanation
 - d. symptom
13. When a patient is not responsive to sensory stimulation, he or she is said to be _____.
 - a. agitated
 - b. unconscious
 - c. comatose
 - d. paralyzed
14. What is the medical term for fainting?
 - a. stroke
 - b. seizure
 - c. syncope
 - d. senile
15. The medical term for chest pain is _____.
 - a. angioplasty
 - b. angina
 - c. angiogram
 - d. anemia
16. The medical term for a stroke is _____.
 - a. cerebrovascular accident
 - b. cardiovascular accident
 - c. cardiopulmonary obstruction
 - d. obstructed airway
17. The medication a patient with asthma would most commonly have with him or her is _____.
 - a. nitroglycerin
 - b. insulin
 - c. a bronchodilator
 - d. an analgesic
18. What kind of allergic response could be life-threatening?
 - a. grand mal seizure
 - b. anaphylaxis
 - c. myocardial infarction
 - d. airway obstruction

NATIONAL CONTEST DENTAL ASSISTING

STATION 10 CHAIRSIDE INSTRUMENTS AND HVE PLACEMENT

Task	Poss. Pts.	Points	Comments
Single-handed Transfer and Exchange Retreived instrument from the instrument tray opposite the working end		8	
Held the instrument in the transfer zone, 8 to 10 inches away from the dentist	10	8	38 / 50
Anticipated the dentist's transfer signal & positioned the new instrument parallel to the instrument in the dentist's hand	10	7	
Retreived the used instrument using the last two fingers	10	7	
Delivered the new instrument to the dentist.	10	8	
Maintained safety throughout the transfer	10	10	
Nonlocking cotton Pliers Transfer Held the contents (cotton pellet) securely by pinching the beaks together	10	10	
Delivered the pliers so the dentist could hold the beaks together	10	10	
Retreived the pliers without dropping the cotton pellet	10	10	

Forceps Transfer Used the right hand to pick up the forceps and hold it for delivery in the position of use.	10	10	50/50
Used the left hand to retrieve the used instrument from the dentist.	10	10	
Delivered the new instrument to the dentist in the appropriate position	10	10	
Returned the used instrument to its proper position on the tray	10	10	
Handpiece Exchange Used the left hand to pick of the handpiece and hold it for delivery in the position of use	10	10	
Used the right hand to take the used instrument from the dentist	10	10	
Delivered the handpiece to the dentist in the appropriate position	10	10	
Air-Water Syringe Transfer Held the nozzle of the air-water syringe in the delivery fingers	10	10	
Retrieved the instrument the dentist was using, then delivered the syringe	10	10	
Scissors Transfer Picked up the scissors and held them near the working are with the beaks slightly open	10	10	
Positioned the handle of the scissors over the dentist's fingers	10	10	
Retrieved the used instrument with the right hand	10	10	
HVE POSITIONING Assumed the correct seated position to accommodate a left-handed or a right-handed dentist	10	10	

Use the proper grasp when holding the HVE	10	9	
Grasped the air-water syringe in the left hand during HVE placement	10	9	
Positioned the HVE correctly for the maxillary left posterior treatment	10	9	
Positioned the HVE correctly for the maxillary right posterior treatment	10	10	44/50
Positioned the HVE correctly for the mandibular left posterior treatment	10	9	
Positioned the HVE correctly for the mandibular right posterior treatment	10	8	
Positioned the HVE correctly for the anterior treatment with lingual access	10	10	
Positioned the HVE correctly for the anterior treatment with facial access	10	10	
TOTAL PTS	350	305

IDENTIFICATION OF PROSTHETIC ITEMS AND MATERIALS

PLEASE MAKE SURE TO WRITE YOUR CONTESTANT NUMBER ON THE ANSWER SHEET.

1. ITEM #1- This item is identified as a Full Denture.
 - a. TRUE
 - b. FALSE
2. ITEM #2- This item is called a "Snap Mandrel" that is being used with a sandpaper disc.
 - a. TRUE
 - b. FALSE
3. ITEM #3- This item is a preliminary maxillary full denture impression that is using a stock tray.
 - a. TRUE
 - b. FALSE
4. ITEM #4- This item is called a Full Maxillary Denture.
 - a. TRUE
 - b. FALSE
5. ITEM #1 - This item is also called a precision partial.
 - a. TRUE
 - b. FALSE
6. ITEM #5- This item is a partially prepared whitening tray.
 - a. TRUE
 - b. FALSE

7. ITEM#6- This item is a preliminary impression using Poly Vinyl Siloxane impression material.
 - a. TRUE
 - b. FALSE
8. ITEM #7- This item is a relined denture.
 - a. TRUE
 - b. FALSE
9. ITEM #8- This item is a "Heatless Mizzy Wheel".
 - a. TRUE
 - b. FALSE
10. ITEM#9- This item is a type of impression wax.
 - a. TRUE
 - b. FALSE
11. ITEM #10- This item is a type of temporary crown.
 - a. TRUE
 - b. FALSE
12. ITEM #6- This item is an impression that includes a bite registration.
 - a. TRUE
 - b. FALSE
13. ITEM #9- This item is "softened" by placing it directly into the mouth .
 - a. TRUE
 - b. FALSE
14. ITEM #4 –This item can be used in a contra angle handpiece.
 - a. TRUE
 - b. FALSE
